

# Thine Eyes

SO BLUE  
AND TENDER

may be tender indeed, and to such an extent that comfort is impossible.

Don't you know that eleven-tenths of eye trouble is eyestrain? and is perfectly corrected by the use of proper glasses.

The kind we prescribe.

H. F. WICHMAN,

FORT STREET.

# LAXATIVE.

THE KIND YOU HAVE ALWAYS bought has borne the signature of the Western Chemical Co. of Chicago, Ill., for years. Allow no one to deceive you with counterfeits. Imitations and "just as goods" are but experiments, and endanger the health of children.

## What is Laxative?

LAXATIVE IS NOTHING BUT THE FINEST CASTOR OIL, with its objectionable taste removed by our new process LAXATIVE is as pleasant to take as honey. Children like it. No trouble to get them to take it. It contains neither opium, morphine, nor other narcotic substances. It relieves toothache, cures constipation and flatulency; it assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep.—The Children's Panacea—the Mothers' Friend.

Prepared only by the Western Chemical Co., Chicago, Ill.

## A CLEAN RECORD

No Plague Deaths for Eight Days.

## SPECIMENS FROM WAIALUA

Board of Health Meeting -- Queen Hotel Bill -- Various Freight Matters Considered.

About the only news which caused any trepidation in health circles yesterday was a telephone message from Waialua, stating that specimens taken from a Japanese who had died the day before had been forwarded to the Board of Health for bacteriological examination.

Telephonic inquiry of Dr. H. Wood at Waialua, last night, gave almost conclusive evidence that the man had not died of plague, but of beriberi. However, as the man had died rather suddenly, the doctor took the wise precaution of obtaining specimens from the body for examination by Dr. Hoffmann. The latter did not receive them last evening, and therefore he can give no opinion as to the nature of the Waialua death. The man had been ill for seven days prior to his death, and was a plantation laborer.

The body of a young Hawaiian woman was brought in last night to the morgue from Kalia valley for post-mortem examination. Dr. Hoffmann found nothing suspicious from his examination, and signed a certificate attributing the death to nephritis.

A health physician was called to a residence opposite the premises of W. O. Smith on Nuuanu street to attend a Chinese child, which appeared to be suspicious to the inspector who sent in the call. Swellings were found on the neck, which more resembled mumps than infected maxillary glands. A report of "nothing suspicious" was recorded.

Excellent reports were received from the pest hospital last night, all the patients being recorded as progressing most favorably.

The Board of Health yesterday ordered the health guards removed from the premises at Kalia, where Aluli died on Sunday.

No deaths from plague have occurred in the last eight days; the last being that of Yamaoko, who died on February 6th.

### Board of Health Meeting.

Yesterday's session was attended by Attorney General Cooper, acting president of the Board, George W. Smith, F. M. Hatch, E. J. Lowrey and Dr. Day.

Minister Cooper announced he had appointed as the investigating committee of the Board Messrs. Arthur Wilder and Lyle Dickey, with which committee he would also associate himself.

Dr. Herbert reported a pneumonia case of a Chinaman, who had died at the Chinese Hospital in the morning, and asked whether a post-mortem should be held. The Board considered that post-mortems should be held in all pneumonia cases, without respect to persons.

A second Chinaman from the same hospital was reported to have died there of consumption, and the body had been sent to an undertaker's establishment without having had a burial certificate issued by the Board. A physician was sent to investigate, and returned with the information that consumption was the cause of death.

### The Queen Hotel Bill.

A communication was received by the Board from the arbitration committee appointed to settle upon an amount for the use of the Queen Hotel as a quarantine hostelry. The following communication to President Wood shows the results of their investigations:

"The undersigned having conferred with Mr. Azbill, proprietor of the Queen Hotel, and having visited the premises and seen the conditions there, recommend that the sum of \$1,800 be paid to him for the use of the hotel for one month.

J. ALFRED MAGOON,  
F. R. DAY,  
W. F. ALLEN.

"Arbitrators." In his bill Mr. Azbill, the hotel proprietor, asked for \$1,850, the last item on the itemized bill being \$50 for arbitration expenses. The Board disallowed this item, saying that was a payment which rested entirely with the proprietor, inasmuch as the Board knew that two of the arbitrators made no charge for their services.

### Opening of King Street.

Prof. Ingalls made a report upon the condition of King and Nuuanu streets, recommending that both be opened, his explanation being as follows:

The President of the Board of Health, Honolulu, Oahu.

Sir: I have to report as follows: As far as my work as disinfectant and fumigator is concerned there is no reason why King street, Nuuanu street and Hotel street should not be opened Thursday, February 15, 1900. But there is yet work to be done by some other department.

There is a very bad W. C. on the Walkiki side of Nuuanu street midway between Hotel and King streets. This needs pumping out; but should not be done until the new one now in process of construction is completed and ready for use; so that the use of the old one may be discontinued when pumped out and it may be filled with clean earth immediately after pumping.

On the Ewa side of Nuuanu street.

midway between Hotel and King streets, and immediately behind the regular brick structures fronting the street, stands a wooden building with corrugated iron roof, the reputed property of one L. L. McCandless. Said structure, I believe, was ordered to be destroyed by the Board of Health. This building is in immediate contact by a stairway and platform, with the brick building in front of it. This lean-to should be cut away and the condemned structure isolated completely by fence or destroyed entirely as originally ordered by the Board of Health.

The objection to the opening of Hotel street beyond (Ewa of) Nuuanu, is this: This street is somewhat littered up with pieces of burnt matting, etc., these things can be easily removed and should be at once. I remain

Very truly,  
A. B. NGALLS.

Honolulu, Oahu, Feb. 14, 1900. 1:30 p. m.

Mr. Hatch moved, seconded by Mr. Lowrey, that King street be opened to public traffic in accordance with the report of Prof. Ingalls, on and after 12 o'clock tonight. Carried.

### The Kerosene Camp.

Minister Cooper announced that Mr. W. Smithies had been appointed to take charge of kerosene warehouse camp in place of Mr. Atkinson, who had gone to Hilo for the Board of Health. It was reported that the period of quarantine of quite a number of people has expired, but the superintendent was awaiting a definite report on the case of the Hawaiian, Koali, who was removed from the camp to the pest hospital on February 5th. It was moved that in the case of those people whose period of quarantine has expired at the kerosene camp, they be held subject to the report of Dr. Hoffmann. If the case turns out to be plague they will be kept at the corral for fifteen days from the time Koali was taken from the camp. If it is not plague they are to be released at once. Carried.

A request was received from Mr. Dowsett, asking that he be allowed to go to Pualoa to round up cattle to be afterwards driven into Honolulu, by boys whom he will send out after his return. The request was granted.

### Burgess-Austin Buildings.

It was reported to the Board by Minister Cooper that he had prevented Mr. N. F. Burgess from removing portions of his building after the row had been condemned by the Board of Health as insanitary and ordered not to be sold by public auction.

Sanitary Engineer Cousins was sent to make a further investigation of the building claimed by Mr. Burgess, and later reported that the two-story building next to the Metropolitan Meat Market belonged to Mr. Waller, who had requested that a guard be sent to look after the entire row of buildings and prevent any of the rotten lumber being taken away unless under the orders of the Board.

The Board understood that President Wood had distinctly told Mr. Burgess that nothing in that row should be carried away, as it was to be destroyed by fire after being removed piecemeal to the burned district. A resolution was passed by the Board as follows:

Whereas, the frame buildings situated on King street on land belonging to the Austin Estate, between the Metropolitan Meat Market and Chisholm's shop, having been declared insanitary by the sanitary engineer of the Board; therefore, be it

Resolved: That the said material of the buildings be declared a menace to public health and that the owners be required to remove such material to a place designated by the Board, there to be destroyed by fire. Carried.

Judge Perry, of the Citizens' Sanitary Committee, sent in a long list of premises and buildings which were considered insanitary by the inspectors and sub-inspectors, together with their recommendations, which are published in another column.

It was moved and seconded that the report, with the exception of Kewalo district and the ponds noted, be referred to Sanitary Engineer Cousins. Carried.

### Beef From Sydney.

The question of importing freight was brought up for consideration, it being stated that the Aorangi would arrive on the 21st instant from Sydney, and the latest reports from there were to the effect that plague had made its appearance. Large quantities of refrigerator beef and mutton were expected and the consignees wanted to know if the Board would allow it to be landed. The matter will be referred to a special committee.

Messrs. Peacock & Co., asked a ruling from the Board in regard to the manner in which they are compelled to disinfect bottles of liquors, they being required to discard repacking them in straw, so that the bottled liquors could not be shipped with safety. They sent a sample of corrugated paper wrapper which they said they would use if sanctioned by the Board. The Board acquiesced in its use.

The Chinese Consul asked permission for several Chinese to assist the others at Kalia camp on the day of their departure from that place. If agreeable to Superintendent McVeiga, the Board thought there would be no difficulty in granting the request.

J. F. Morgan for the Love Estate requested information as to when the Love bakery on Nuuanu street could be opened. Action was deferred until the return of President Wood from Hilo.

Shoyu to Burn.

Moved that the merchandise now in the Weaver building, with the exception of Shoyu, be removed to the Aala warehouse or other warehouse suitable. The Shoyu to be destroyed with the building. Carried.

Mr. Lowrey was appointed by the Board to make an inspection of the new fence at the corner of Kukui and River streets and make whatever changes he thought necessary where the Pauoa stream was crossed imperfectly by the fence.

It was reported that Dr. Hodgins had been asked to assist the Health Department in its work, but no answer

had been received from him as to whether he would accept.

Application of Mrs. Atcherly and seven others to go into quarantine at Brown's place near Koko Head was received, and permission granted to use the designated.

Moved that the health guards surrounding the premises where Aluli died at Kalia, be removed, as the death was not attributed to plague. Carried.

The question of vessels unloading their cargoes at or near the wharves was brought up. It was thought that the President should be authorized to use his discretion in granting permission for vessels to unload near the wharves.

A request from Henry Smith, clerk of the Judiciary Department, was received asking permission to forward several large record books to clerks of courts on other Islands.

Moved that Henry Smith be granted permission to forward the books as requested. Carried.

### Day for Rat Killing.

Mr. Smith: "While the Board can not set aside a day to close up their stores and follow the directions of the Citizens' Sanitary Committee in the killing of rats, still I think the Board should insert a request to the public in the By Authority column of the newspapers, requesting them to follow whatever instructions the Sanitary Committee asks of them."

### Imaginary Plague.

A good many people in town think they have sore places on the femoral gland or right under the armpits. A doctor says they probably have and that it is no wonder. These people press the suspected places several times a day in search of indications and in that way bruise the flesh and muscles. Then they feel unmistakable twinges and imagine they have the plague. In a tramway car the other day every man aboard was observed to press his finger tips hard against the locality of his femoral gland and some of them after doing so looked scared.

### CARD OF THANKS.

THE UNDERSIGNED WISHES TO publicly express gratitude to his many friends from the district of North Kona, Hawaii, who extended kindness and sympathy during the late bereavement of his beloved wife.

GEORGE CLARK,  
5469—2151-11
